Introduction

Oxford University Press (OUP), the publishing arm of Oxford University, has especially developed this Model Curriculum Guide to assist Teachers, Academic Coordinators and Principals. Containing a comprehensive list of courses and divided according to subject and class level, it is the ideal guide for anyone interested in developing a systematic, quality school curriculum.

Both imported and locally published books and courses are listed by subject and class. Course planners are advised to review these carefully and select those books and courses that are particularly suited to their needs. By providing alternatives under each subject heading, OUP recognizes the principle that choice is the essence of freedom: while ensuring that OUP books and courses fulfil basic course requirements, there is scope for each school to develop its own distinctive curriculum.

In addition to core textbooks, reference books, and supplementary material, most OUP courses are accompanied by comprehensive teaching guides, which provide the teacher additional information and helpful guidelines. OUP organizes workshops for teachers to provide them with comprehensive support on teaching Oxford books.

All OUP courses, whether locally published or imported, are available at OUP bookshops and offices in Karachi, Islamabad, Lahore, Multan, Peshawar, Faisalabad, and Quetta.

Please feel free to contact your nearest OUP office for any further assistance.

Contents

- 2** Pre-Nursery
- 3** Nursery
- 4** Kindergarten (KG)
- 6** Class 1
- 8** Class 2
